A note from the classroom

Easter is the only time when it’s perfectly safe to put all of your eggs in one basket.

-Happy Easter

-Evan Esar
Over the past several years the Middle School PTO has played a pivotal role in breathing new life into the OPMS Technology Education program. Due to the PTO’s ability to fundraise they have generously donated multiple forms of technological devices to assist in supporting a wide range of needs within the Technology Education program. A few years ago, Mr. Roland expressed an interest in VEX Robotics components, with the intention of starting a Robotics Club and integrating robotics into the classroom. The Quaker Bots, as the club is named, built and entered a robot called “Beep, Beep, Boop, Boop, Beep, Beep” into a local competition, qualified, and competed in the finals for that event. Orchard Park was officially on the radar for Western New York robotics and this couldn’t have been accomplished without the incredible support of the PTO. Students were granted hands-on, robotics experience and the perspective of competing with 21 other WNY teams.

With students competing and robotics being further explored, teachers were inspired to continue dreaming of the greatest experiences possible for OPMS students. There were grandeur ideas of laser engravers, 3D printers, drones and more. As teachers further developed these distant ideas, it became evident that many of these needed to be seriously considered. After great amounts of planning and scaffolding curriculum and prioritizing needs and wants, the Technology Education Department had a bold vision and plan for the future.

Last year, Mr. Johnson’s 8th grade students learned about Computer Aided Drafting and how to 3D model. Teachers recognized that classes were lacking a way to produce more tangible objects and experiences beyond just creating digital models. After requesting the assistance of the OPMS PTO and the Orchard Park Foundation for Academic Excellence, Mr. Johnson’s lab is now stocked with a Prusa 3D printer farm, including 10 printers! The 3D printers have played a vital role in maintaining a Covid-safe environment, during the pandemic, while still allowing students to work “hands-on” both in the classroom and remotely. Students design three-dimensional models on their Chromebooks, quickly send their model to the print farm, and later pop the model right off the print bed. From assistive medical devices to fidget spinners to custom designed catapult games, 3D printers provide the students with a means of engineering their thoughts into reality.

Most recently, the PTO has been able to provide assistance to the Technology Education department to meet their latest goal of teaching students the technology and principles of Unmanned Autonomous Systems (drones). The Technology Department met with teachers from Computer Science, Math, and Science to develop cross-curricular lessons focused on drone technology. While the class set of smaller drones are helpful, teachers and students did not have access to larger scale drones and the technology that comes with them. Through a recent curriculum project, this group of teachers realized the potential for a larger aircraft, such as thermal imaging, and requested the support of the PTO. Thanks to this collaboration, students will very soon be able to fly drones up to 400 feet in order to record weather, climate, and topography information for Science, calculate distances and angles compared to altitudes for Math, and learn how to safely fly and maintain drones during Technology classes. Mr. Gill and Mr. Roland will be the lead instructors to work with students since they have already studied and successfully completed the requirements for the FAA Part 107 Remote Pilot certification. These two teachers are already collaborating with OPCSD Buildings and Grounds for inspections across district properties as well as the OPCSD Transportation Department to record training videos for bus arrival, parking, and departure at each school. OPMS students will be flying these missions!

Needless to say, the OPMS PTO provides our students with not only fun, after-school activities but also meaningful and much needed technological equipment for use in the classroom. The OPMS Technology Education Department and Computer Science Department are forever grateful to all past and present members and look forward to an incredible future for our students.

ORCHARD PARK MIDDLE SCHOOL PTO MEETING
MINUTES
March 10TH, 2021 6:30pm ZOOM MEETING

ATTENDANCE: Nicole Curtis, Jessica Merry, Elizabeth Duckham, Mr. Grupka, Petra Novak, Jennifer Domzalski, Kressie Bonin, Michelle Faust, Denise Straitiff, Erin Homer, Melissa Haak, Donna Leigh, Barbra Lesh, Carla Becker, Tammy Vitko, Maura Watson, Sally Diegelman

I. CALL TO ORDER The meeting was called to order by OPMS PTO Vice President Nicole Curtis, at 6.32pm. She opened the meeting by welcoming everyone.

II. APPROVAL OF THE MINUTES: - ELIZABETH DUCKHAM
OPMS PTO Secretary Elizabeth Duckham noted that the minutes from the February Meeting were approved electronically. PTO members were asked to enter their names and e-mail addresses into the chat as a sign in sheet. The draft minutes will be sent to attendees for approval via e-mail. Officers and Chairs were asked to send her a copy of their report for the minutes at the end of the meeting.

III. PRINCIPAL’S REPORT: - MR. GRUPKA
Friday, the 19th of March, will be a half day. There will be no students in attendance on Monday, March 22nd (Superintendent Day).
Clubs have started to meet. Please encourage your students to listen to the MSTV announcements, and to attend the clubs. Mr. Grupka is hoping that the clubs will help students feel more connected to school. There is no late bus.
All 8th Graders have received a form, via email, to vote for the 8th Grade T-Shirt design that they like. There are 5 great designs to choose from. Congratulations to the 8th Grade students who designed them. There was some great creativity. The voting is open until Friday this week. Thank you to Mrs. Sanchez for organizing the competition.
The Board of Education met last night and there were questions regarding attendance and changes in guidelines. There is no change at this point. 6 feet in the classroom, 12 feet for Physical Education and Music. The OPSD will wait and see, if and when, the guidance changes. Feedback from parents will be considered. The talk at this point is that the CDC will change guidelines to 3 feet with barriers. This will pose many logistical challenges including transportation and the cafeteria; as well as the overall schedule for both the virtual and hybrid models. They are examining the various options.
Quaker Camp, this summer, will not just be for the Elementary School students but also the Middle school students. This will be the first time in 11 years. The plan at this point it will be for ELA, Math, Social Studies and Science classes for students who are struggling academically. Mr. Grupka is also hoping to add a different satelite class each week eg Art, Phys Ed and Tech. All parts of the OPMS will be represented but it won’t be overwhelming. There will be a transition group of 5th – 6th graders; 6th to 7th graders and 7th to 8th graders. 8.30am – 12noon at OPMS. They are trying to be responsive to the needs of the students, especially after this past year. There will hopefully be more clarity regarding the Regents exams next Wednesday. This will impact the 8th Graders taking the Accelerated Algebra course.

IV. TEACHER GRANTS: - ELIZABETH DUCKHAM
Mr. Grupka is requesting funding for 6 portable dry erase boards to be used by the OPMS teachers in the outdoor learning spaces this spring. They will be made available to all of the OPMS teachers to use, in conjunction with the tents previously donated by the PTO. Each one is $123.92, a total purchase of $743.52.

The celebration during the day is after the Awards Ceremony and includes organizing outdoor activities e.g. inflatable obstacle courses, dunk tank, lawn games; hot dogs and refreshments. The evening celebration has typically included a DJ and dance in the gym; yarn dodge ball; indoor lawn games; henna tattoo artist; caricature artist; green screen; selfie stations; refreshments including cotton candy, popcorn, milkshake truck etc. The Committee typically starts planning in January and suggests 3 themes to the Student Council. The 8th Graders vote on these themes and the winning theme is used for flyers, costumes and decorations at the evening celebration.
