Hello! My name is Kelsey and my husband Pete and I started Snyder Track and Field in 2020 as a way to keep our kids and their friends entertained during the pandemic. As the program grew, we started making it our mission to expose as many kids as possible to our favorite sport. While we love ball sports, Track and Field allows kids of all abilities to feel a sense of accomplishment and success simply by improving upon their own performances.

Starting in January, we will be offering classes in Orchard Park!

We offer 6-week sessions where each class builds from the class before and teaches a key element of Track & Field (sprints, jumps, throws, long distance, hurdles, etc.)

**WINTER INDOOR CLASS SCHEDULE ORCHARD PARK**
