BASKETBALL CAMP FOR GIRLS
Campers will be instructed in every aspect of the game of basketball. Individualized instruction will be provided in a fun-filled environment. Each day of camp will include one-on-one teaching, skill enhancement drills and team play. Here's a brief summary of what you'll get out of this camp...

Improve Your Ball handling - Considerable time will be spent on your dribbling and passing skills -- allowing you to reduce turnovers, handle any game situation, improve decision making, and improve overall ball handling skill.

Improve Your 1 on 1 Moves - You will learn how to beat your defender off the dribble, when to attack, how to create space, and how to develop a more explosive first move. In today's game, so many players misuse the dribble. They use it and lose their advantage against the defense. You will learn how to effectively use the dribble and cover more space with fewer dribbles at a faster pace.

Improve Confidence - During the camp, the coach will teach the mental aspects of the game, help you build confidence, and become more aggressive. You will learn how to train your mind not just physical skills.

Improve Decision Making - You will improve your ability to think and act in decisive ways. The unique decision making drills and skills will help you perform under pressure at the highest level.

Improve Shooting - Shooting is a critical skill to be an effective player. You'll learn the keys to effective shooting and experience a variety of shooting drills to help you improve accuracy and ability to score points.

Become More Aggressive - One of the biggest benefits to the training camp is the development of a confident attacking mindset. The drills, tools, and knowledge you'll receive at the camp will help you become more aggressive and assertive in games.

Improve Speed & Agility - Throughout the camp, the coaches will integrate speed and agility drills to help you improve defense, your first step, and overall agility.

Finishing Moves - With a ball in your hands throughout most of the camp, you'll get opportunities to improve your finishing moves and ability to finish at the basket. You'll learn what to do with the ball after you beat your defender and how to score more points.

Campers will leave with a better sense of self and a better understanding of what it takes to be successful in basketball and, in turn, every aspect of life. We will address technical, tactical and applied aspects of basketball that will help a player develop their game beyond the level they are currently at.
