Feeling overwhelmed by the system? You are not alone.

ADHD, Developmental Delays, Apraxia, CP, Dyslexia, Learning Disabilities, ODD, DMDD, Autism, Anxiety, Depression, Tic Disorders, emotional issues ... the list goes on.

Every child is different. Some need more help than others. Where does a parent or guardian go for help? What services are available? Is an advocate necessary?

Please join us for discussions, updates, networking and guest speakers.
