Boys on the Right Track empowers boys through an educational running program designed with a fun and active social-emotional learning environment. Our trained coaches engage boys ages 8-13 through exercise and lessons that build confidence, grow healthy relationships, develop communication skills and much more while training them to run a 5k. (Coaches don't have to be runners)

**Curriculum, Training, Materials and CPR Certification provided.
Ask us about our Sign-On Incentive! Only a 9 week commitment.**
