

If you need help on completing a Works Cited for a internet source. use this guide.

Look at the **different colored lines**. Find the information on the internet site(there are hints at the bottom of the page) and fill it in at the top of this sheet. Then take that information and put it in with the **co-ordinating color** at the bottom of the page. After that, open a Word document and type your citation exactly how it is, remember to include all the punctuation marks that are shown.

Look at the formula and examples on this page to help you.
