

ISFJ

**INTROVERTED, SENSING,
FEELING, JUDGING**

"THE NURTURER"

All about ISFJs

ISFJs have two basic traits that help define their best career direction: 1) they are extremely interested and in-tune with how other people are feeling, and 2) they enjoy creating structure and order, and are extremely good at it. Ideally, the ISFJ will choose a career in which they can use their exceptional people-observation skills to determine what people want or need, and then use their excellent organizational abilities to create a structured plan or environment for achieving what people want. Their excellent sense of space and function combined with their awareness of aesthetic quality also gives them quite special abilities in the more practical artistic endeavors, such as interior decorating and clothes design.
